DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Daniel Geselowitz on April 24, 2006.

The application has been amended as follows:

The title is amended to read "Semiconductor light-receiving device with multiple potentials applied to layers of multiple conductivities".

Claim 31 is amended to read:

Claim 31 (currently amended): A semiconductor light-receiving device comprising:

- a substrate that has a first surface and a second surface opposite to each other;
 - a first semiconductor layer that is formed above the surface of the substrate and includes at least one semiconductor layer portion of a first conductivity type;
 - a light absorption layer that is formed above the first semiconductor layer and generates carriers in accordance with incident light;
 - a semiconductor layer that is formed above the light absorption layer and includes at least one semiconductor layer portion of a second conductivity type;
 - a first electrode part that applies a first potential to first semiconductor layer;
- ~~wherein the first potential is higher than the reference potential;~~

a second electrode part that applies a second potential to the second semiconductor layer;

a metal layer that is formed on the second surface of the substrate and has a reference potential supplied thereto, wherein the first potential is higher than the reference potential; and

a dielectric layer provided so that the metal layer, the dielectric later and the second surface of the substrate are arranged in this order,

a capacitor including dielectric layer being formed in the semiconductor light-receiving device.

Reasons for Allowance

2. Claims 1-42 are allowable over the prior art.
3. The following is an examiner's statement of reasons for allowance:

Reasons for allowance are given in applicant's response filed March 15, 2006.
